- ▶ Providing technical input and support on civil, structural, and groundwork elements of projects
- ▶ Ensuring effective communication across commercial, technical, and stakeholder interfaces
- ▶ Managing site activities in compliance with health, safety, and regulatory standards

Timber Square RC New Build (£30m): At 25 Lavington Street, I led demolition and groundworks for the Timber Square development before being seconded as Project Manager to Swantest.

Portland House Refurb (£40m): At the 30-storey Portland House near Buckingham Palace, I delivered demolition enabling works including basement strip-out, decladding, lift removals, and preparation for crown demolition.

20-24 Carlton House Terrace (£30m): The Carlton House project in Westminster involved complex cut-and-carve demolition through a live car park, extensive temporary works across 15 floors, façade removal, and vertical cutting to enable construction of three additional cores.
